#### Analysis of Operating Results

In the fiscal year ending on December 31, 2019 (January 1, 2019 to December 31, 2019), total non-alcoholic ready-to-drink (NARTD) beverage industry volume performance is estimated to be slightly negative versus prior year mainly due to cycling of strong demand driven by hot summer weather last year as well as longer rainy and cool weather in July. The health food and cosmetics industries continue to grow, driven by demand from health-conscious consumers and inbound tourism, while the competitive environment has been marked by successive product launches by various industry players.

For the Company, 2019 has been a transition year focused on recovery from the flooding damage and disruption to product supply in 2018 and building a solid foundation for future growth. We have been making major investments to recover our supply network and progressively expand production capacity, and will continue to do so through second quarter 2020. We were the first in the beverage industry to announce and implement a wholesale price increase for large PET products in April, the first time in 27 years, as an important initiative toward achieving more balanced volume and revenue growth.

We developed and announced a new five-year strategic business plan in August 2019 with targets for both Business Income margin and ROE in 2024 of 5 to 6%. The new five-year strategic business plan includes focused investments to reignite sales growth in close collaboration with Coca-Cola (Japan) Company, Limited as well as fundamental transformation to drive cost savings. Over the course of the five-year plan, we expect net cost savings of approximately 35 billion yen, representing ongoing savings initiatives and incremental programs focused on transforming our vending channel operations, evolving our frontline salesforce capabilities and identifying opportunities across procurement and our supply chain.

Our full-year results were impacted by a decline of topline revenue due to lower beverage business sales volume, reflecting supply constraints of higher-growth aseptic PET products and continued lower manufacturing efficiencies and elevated logistics and distribution expenses as we recover our supply and distribution infrastructure after the flooding in 2018. Business income for our core beverage business was ahead of the plan we announced in May 2019, offset by weaker performance in the health and skincare segment. Consolidated year-to-date results also reflect impairment of goodwill recorded in the second quarter.

#### Full-year 2019 Highlights

- Full-year NARTD beverage volume declined 2%, reflecting unseasonably cool and rainy weather in July and the wholesale price increase in April, recovering to 1% growth in the fourth quarter (October to December). Full-year beverage business revenue declined 1% and grew 1% in the fourth quarter.
- Beverage business market share improved, with value share growth ahead of volume share in the fourth quarter led by coffee, non-sugar tea and sports category performance. Premium-priced new products contributed to value share growth
- Business Income was substantially in-line with the full-year plan announced in May 2019 led by ahead-of-plan core beverage performance despite underachievement of the health care & skin care business. Full-year Business Income decreased 35% versus prior year as we continue to recover from the supply disruption of 2018.
- Full-year operating loss of 55 billion yen reflects the goodwill impairment recorded in the second-quarter.
- Continued investment for recovery of supply network, expanding production capacity and improving infrastructure. Capital investments of close to 90 billion yen in 2019, with three new manufacturing lines and two new automated warehouses, as well as completion of company-wide deployment of a new ERP system, "CokeOne".
- Major transformational initiatives ongoing. Announced new organizational structure aligned with the strategic business plan and grounded in new corporate mission, vision and value statement. Executing transformation in vending business and investing in people capability development to achieve sustainable growth.

			(Unit: Billions of yen)
	2018	2019	YoY
Net Revenue	927.3	914.8	(1.4%)
Business Income	23.3	15.0	(35.4%)
Net Income (Loss) Attributable to Owners of Parent	10.1	(58.0)	_

\*We introduce "Business Income" as a measure of our underlying or recurring business performance after the adoption of IFRS. Business Income deducts cost of goods and SG&A from revenue, and includes other income and expenses which we believe are recurring in nature.

Full-year 2019 net revenue was 914.8 billion yen, a decrease of 12.5 billion yen, or 1.4% compared to the prior-year period. Net revenue of the beverage business decreased 9.9 billion yen (1.1%) versus the prior-year period, to 890 billion yen, reflecting a 2% volume decline offset by improved price/mix from the wholesale price increase of large PET packages in April and the national launch of Lemon-dou "chu-hi" alcohol beverage in the fourth quarter. Net revenue of the healthcare & skincare business declined 2.7 billion yen (9.7%) year-on-year to 24.8 billion yen, reflecting continued weakness of mail/web order sales with some recovery in the fourth quarter due to new product launches and marketing activities.

Full-year Business Income was 15.0 billion yen, a decrease of 8.2 billion, or 35.4% year-on-year, and roughly in line with full-year expectations. Business Income of the core beverage business was 11.4 billion yen (down 6.5 billion yen or 36.2% year-on-year), which was slightly above the revised plan target announced in May driven by tight control of expenses. The beverage business performance reflects weaker topline revenue due to the sales volume decline of 2% and continued lower manufacturing efficiencies and elevated logistics and distribution expenses this year as we recover and expand supply capacity after the disruption in the second half of 2018. Partly offsetting this pressure, we achieved labor savings as a result of integrating retirement benefit programs in the first quarter and completing a voluntary employee retirement program in the second quarter. Promotional expenses in the period were also lower, in line with volume performance. Business Income in the healthcare & skincare business was 3.6 billion yen, a decrease of 1.7 billion yen or 32.7% year-on-year, reflecting lower revenues while we continue to focus on promotional expense control and other cost savings opportunities.

We reported a consolidated operating loss for the fiscal year of 55.4 billion yen (14.7 billion yen operating income in prior year period), mainly driven by the impairment of goodwill recorded in the second quarter. As a reference, other expenses (nonrecurring) in the prior-year period include loss on disaster of 8.9 billion yen from the flooding damage in our Hongo Plant in Mihara-city, Hiroshima Prefecture in July 2018. Other expenses (non-recurring) in 2019 include 9.2 billion yen of special retirement allowance and 655 million yen of transformation-related expenses to drive fundamental transformation of our business for sustainable growth, further value creation and efficiency improvement following our newly developed strategic business plan announced in August 2019. Net income attributable to owners of parent was a loss of 58.0 billion yen (10.1 billion yen in the prior-year period).

## Analysis of Financial Position

The ratio of the Group's equity attributable to owners of the parent to total assets at the end of the fiscal year was 53.1%, and we believe that our financial position remains sound.

Assets at the end of the fiscal year were JPY 952.4 billion yen, an increase of 75.0 billion yen from the end of the previous fiscal year. This is mainly attributable to an increase of Cash and cash equivalents by bond issuance in the third quarter, increase of fixed assets as a result of commissioning three new production lines in Kumamoto and Kyoto plant, and two new automated warehouses in Hakushu and Kumamoto plant as well as non-current assets by newly including Right-of- use assets as a result of the implementation of IFRS 16 starting from this fiscal year, which are partially offset by decrease of goodwill by goodwill impairment in the second quarter.

Liabilities at the end of the quarter were 446.0 billion yen, an increase of 149.4 billion yen from the end of previous fiscal year. This is mainly due to an increase of Bonds and debt in non-current liabilities due to issuance of the bond, and an increase of Lease liabilities in conjunction with including Right-of-use assets.

Net assets at the end of the quarter were 506.5 billion yen, a decrease of 74.4 billion yen. This is mainly due to a decrease of Retained Earnings as a result of the goodwill impairment and an increase of Treasury Shares due to the completion of the share buyback program in February 2019.

## Analysis of Cash Flows

#### <Cash Flows from Operations>

Net cash used for operations was 42.6 billion yen (51.2 billion net cash generated from operations in the previous year period). This results mainly from the 55.4 billion yen net loss before tax, loss due to impairment of goodwill, depreciation expenses, increase of notes and account payable-trade, etc. offset by an increase of trade and other receivable, inventories, payment of taxes, etc.

#### <Cash Flows from Investment Activities>

Net cash used for investment activities was 68.3 billion yen (48.6 billion yen in the previous year period), due to purchases of fixed assets as we recover our supply network and progressively expand production capacity, etc.

#### <Cash Flows from Financing Activities>

Net cash generated from financing activities was 74.0 billion yen (55.8 billion yen net cash used for financing activities in the previous year period), driven by an issuance of 150 billion yen of straight bond, etc., partially offset by cash spent for share buyback, payment of year-end dividends, etc.

As a result of these activities, cash and cash equivalents at the end of the fiscal year was 113.8 billion yen, an increase of 48.3 billion yen versus the prior year period.

## Capital Expenditures

During the consolidated fiscal year, the Group made total 103,882 million yen capital expenditures primarily in its core segment, the Beverage Business.

Expenditures were primarily for installing vending machines and other sales equipment to the market to strengthen sales capabilities, as well as manufacturing equipment to improve productivity and to adapt production to new products.

#### **Research and Development**

Although the Company is engaged in research and development activities in the healthcare and skincare businesses, the amounts involved are small with no particular items of note.

## Policies for Profit Distribution and Dividends

We periodically review our capital structure and dividend payout ratio to maximize shareholder returns while maintaining the flexibility to pursue expansion opportunities. We will utilize retained earnings for sustainable growth investments, and to pursue business growth and the further enhancement of corporate value.

The Company sets the active redistribution of profits as its basic policy regarding dividends, placing the highest priority on the stable payment of dividends. The Company has set a payout ratio target of 30% or more for net profit attributable to owners of the parent, and pays dividends, comprehensively taking business performance and retained earnings into account. For the year ended December 2019, we payed interim dividend of 25 yen per share and a year-end dividend of 25 yen, which yields an annual dividend of 50 yen per share.

We introduce "Business Income" as a measure of our underlying or recurring business performance after the adoption of IFRS. Business Income deducts cost of goods and SG&A from revenue and includes other income and expenses which we believe are recurring in nature. The following table shows a bridge between Business Income and Operating income in IFRS.

Gross Profit
Selling, General & Administrative Expenses
Other income (Recurring)
Other expenses (Recurring)
Equity in Earnings of Associates (loss)
Business Income
Goodwill Impairment Loss
Other income (Non-recurring)
Other expenses (Non-recurring)
Operating Income (loss)

#### Segment Information (January 1 to December 31)

#### <Reportable segments>

The Group has established organizational management systems for each of its products and services. Based on the types and nature of its products and the markets in which it sells its products, the Group's operating segment and reportable segment businesses are "Beverage business" and "Healthcare & Skin Care business".

		2018		2019			
	Beverage Healthcare & Total business Skincare business		Beverage business	Healthcare & Skincare business	Total		
Revenue	899,863	27,444	927,307	890,009	24,774	914,783	
Segment profit*	8,864	5,818	14,682	(58,904)	3,515	(55,389)	

\*Segment profit is operating income on consolidated statements of income.
