

Coca-Cola West Japan Company, Limited

To whom it may concern

December 1, 2003

Coca-Cola West Japan Co., Ltd.

ISO14001 Obtained by All 148 Posts in 5 Chugoku and 3 Kita Kyushu Prefectures

We are pleased to announce that Coca-Cola West Japan Co., Ltd. and its Group company Coca-Cola West Japan Vending Co., Ltd. succeeded in obtaining the ISO14001 certification, an international environmental management standard, on November 28, 2003, for all the 148 business posts in the five Chugoku and three Kita Kyushu prefectures comprising their business territory. Examination for the certification was conducted by the Japan Quality Assurance Organization (JQA).

Within our Group, the same certification has already been obtained by the Head Office of Coca-Cola West Japan, three plants engaged in production, and a number of Group companies. In a three-year plan beginning this year, the Group is now trying to acquire this certification for all the Coca-Cola business-related offices and plants operated by its member companies to build an improved environmental management system.

As a good corporate citizen, the Coca-Cola West Japan Group recognizes its responsibility towards the local communities to maintain a clean environment and recycle natural resources, so that it can contribute to building a society where people can live safely and in a truly rich way. Through these efforts, the Group would like to seek continued consumer patronage of Coca-Cola products for years to come.
